

Fundamentals of Hospice Palliative Care Program

All program materials will be accessed online on the Partnering for Palliative Education platform through D2L's Brightspace Learning Environment.

This course is a practical, interactive, case-based learning experience. The course is rooted in the philosophy of the early-integrated palliative approach to care. It is designed to help health and social care providers build confidence and skill in caring for people living with a serious illness. The sessions listed below are open to providers in Halton/Peel region.

Program Requirements:

To receive a **Certificate of Completion**, full participation is required:

- Attend all **3 Case-Based Learning virtual sessions** with the option you selected.
Note: These are live, interactive sessions – not webinars. Active participation is expected.
- Complete **Self-Directed Readings** and **e-Learning Modules** on the D2L Brightspace platform
- Participation in **two Peer-to-Peer Exchanges**
- Submit **one Reflective Activity**

Course Access: You'll receive a **welcome email one week before the course starts with login instructions and Zoom link**. If you don't receive it, please contact the Admin Assistant at 905-827-8111.

Course Materials and Technology requirements: Course readings and e-learning modules are online (D2L Brightspace Learning Environment). You'll need access to a **computer, tablet or smart phone** with **internet, microphone and camera**. If this is a barrier, please let us know so we can help.

To register please visit: www.acclaimhealth.ca/fundamentals or click on the course registration link below.
